

- 01 Showdowns (1 on 1) are no different from normal play in the house, ties are rarer and someone will win big.
- 02 The value of the big blind is determined by the player who possesses the small blind (right of the big blind player). They roll a dice and the value it lands on is what the base big blind is multiplied by. The small blind is always half of the big blind. (Maybe skip this one if new)

Roll a  times the blind by 2.

- 03 All players at the night must agree to formal buy in for one to take place. Otherwise a free buy in is mandatory.
- 04 No players are permitted to leave the table until a round is complete, unless for good reason. Between rounds however, it is fair game. Go get a drink, chat with the other players, have a merry old time.
- 05 A tea break can be requested by a player every 10 rounds and will be provided by the staff. Longer breaks between rounds will happen at the same interval.
